COMMUNICATION

S I R:

The Notice of Allowability dated June 2, 2006 states that "the drawings filed on 7/12/05 contain multiple drawings that do not pertain to the invention as claimed." However, as readily apparent from their faces, the eight sheets of drawings referred to in the Notice of Allowability are pages from U.S. Provisional Patent Application No. 60/183,677, a copy of which was submitted on July 7, 2005 in response to the Final Office Action dated March 7, 2005. As such, it appears that the Office is improperly treating those pages as amended sheets of figures of the present application. No corrected drawings are therefore believed to be required. Notwithstanding the foregoing, two (2) sheets of formal drawings including Figures 3 and 4 are submitted herewith.

Respectfully submitted,

Date: SEPTEMBER 5, 2006 By:
